Calling all terrestrials.

We have a post-graduate curriculum on Planet Earth that involves three elements of existence. These elements operate on the spiritual, mental, and physical energy levels. According to Gregge Tiffen, there actually exists a Subterranean Society fifty miles below the crust of the earth that establishes the necessary frequency required for some entities to take on a physical body before they are prepared to use the surface atmosphere on earth as a learning laboratory.

Down to Earth delves deep into the details of the Subterranean Society. What is the point? Get the perspective and details of control. Why do you sometimes feel like an alien in alien territory? Discover the cause and effects of giving your power away. Take your power back.

Gregge Tiffen brings his varied experiences and knowledge from his intense training and application of mysticism. He returned to the United States from the Far East in the late 1950's to teach as he was taught. He is best known as a well respected business consultant, outstanding teacher, personal counselor to people throughout the world, and author of his highly acclaimed book, *Life in the World Hereafter: The Journey Continues*.
